April 12, 2023

# Forward Looking Statements

## Definitions

Capitalized terms used in this presentation but not otherwise defined herein have the meanings ascribed thereto in the Management's Discussion and Analysis dated February 23, 2023 of Eldorado Gold Corporation for the three months and twelve months ended December 31, 2022 (the "MD&A").

## Reporting Currency

All amounts are presented in U.S. dollars ("\$\$") unless otherwise stated.

## Cautionary Note about Forward-looking Statements and Information

Certain of the statements made and information provided in this presentation are forward-looking statements or information within the meaning of the United States Private Securities Litigation Reform Act of 1995 and applicable Canadian securities laws. Often, these forward-looking statements and forward-looking information can be identified by the use of words such as "advance", "anticipates", "assumes", "believes", "budget", "committed", "continue", "estimates", "expects", "focus", "forecasts", "foresee", "future", "goal", "guidance", "intends", "opportunity", "outlook", "plans", "potential", "prospective", "schedule", "signal", "strive", "target", "underway" or "upcoming" or the negatives thereof or variations of such words and phrases or statements that certain actions, events or results "can", "could", "likely", "may", "might", "should", "will" or "would" be taken, occur or be achieved.

Forward-looking statements or information contained in this presentation include, but are not limited to, statements or information with respect to: the duration, extent and other implications of production challenges and cost increases, including those in respect of COVID-19, the Russia-Ukraine war and restrictions and suspensions with respect to the Company's operations; the Company's 2023 annual production and cost guidance, including our individual mine production; the Company's five year production outlook, including our individual mine production; the timing of production; the timing of resource conversion drilling; the total funding requirements for Skouries, including the sources thereof; the drawdown of the proceeds of the Term Facility, including the timing and interest rate thereof; the Company's ability to fund the remaining 20% funding commitment for Skouries; the Company's ability to successfully advance the Skouries project and achieve the results provided for in the Skouries feasibility study; forecasted NPV, IRR, EBITDA, and AISC; expectations regarding advancement and development of the Skouries project, including the ability to meet expectations and the timing thereof; the optimization and development of Greek operations, including benefits, risks, financing and the Amended Investment Agreement related thereto; planned investments in Greece by other entities; the completion, availability and benefits of processing facilities and transportation equipment; government approvals; government measures relating to cost increases; alternative markets for concentrate shipments; changes in law and tax rates; completion and timing of, and consideration expected to be received in, the sale of the Certje project; deferred consideration expected to be received in the sale of the Tocantinzinho project; the timing of production by GMIN of the Tocantinzinho project; flowthrough financings and the use of proceeds therefrom; sustainability and GHG targets; changes in internal controls over financial reporting; critical accounting estimates and judgements; changes in accounting policies; expected metallurgical recoveries and improved concentrate grade and quality; re-rating potential; non-IFRS financial measures and ratios; risk factors affecting our business; our expectation as to our future financial and operating performance, including future cash flow, estimated cash costs, expected metallurgical recoveries and gold price outlook; and our strategy, plans and goals, including our proposed exploration, development, construction, permitting and operating plans and priorities, related timelines and schedules. Forward-looking statements and forward-looking information by their nature are based on assumptions and involve known and unknown risks, uncertainties and other factors, which may cause the actual results, performance or achievements of the Company to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements or information.

We have made certain assumptions about the forward-looking statements and information, including assumptions about: production and cost expectations; the total funding required to complete Skouries; our ability to meet our timing objectives for first drawdown of the Term Facility; our ability to execute our plans relating to Skouries, including the timing thereof; our ability to obtain all required approvals and permits; cost estimates in respect of Skouries; no changes in input costs, exchange rates, development and gold; the geopolitical, economic, permitting and legal climate that we operate in, including at the Skouries project; timely satisfaction of the conditions precedent to closing the sale of the Certje project; our preliminary gold production and our guidance, benefits of the completion of the decline at Lamaque, the improvements at Kisladag and the optimization of Greek operations; tax expenses in Türkiye; how the world-wide economic and social impact of COVID-19 is managed and the duration and extent of the COVID-19 pandemic; timing, cost and results of our construction and exploration; the geopolitical, economic, permitting and legal climate that we operate in; the future price of gold and other commodities; the global concentrate market; exchange rates; anticipated values, costs, expenses and working capital requirements; production and metallurgical recoveries; mineral reserves and resources; the commitment of other entities to make planned investments in Greece; and the impact of acquisitions, dispositions, suspensions or delays on our business and the ability to achieve our goals. In addition, except where otherwise stated, we have assumed a continuation of existing business operations on substantially the same basis as exists at the time of this presentation.

Even though our management believes that the assumptions made and the expectations represented by such statements or information are reasonable, there can be no assurance that the forward-looking statement or information will prove to be accurate. Many assumptions may be difficult to predict and are beyond our control. Furthermore, should one or more of the risks, uncertainties or other factors materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those described in forward-looking statements or information. These risks, uncertainties and other factors include, among others, the following: the outcome of planned technical studies, production and exploration, development, optimization and expansion plans at the Company's projects; possible variations in ore grade or recovery rates; changes in mineral resources and mineral reserves; costs and timing of the development of new deposits; success of exploration activities; increases in financing costs or adverse changes to the Term Facility; failure or delays to receive necessary approvals or otherwise satisfy the conditions to the drawdown of the Term Facility; the proceeds of the Term Facility not being available to the Company or Hellas; ability to execute on plans relating to Skouries, including the timing thereof, ability to achieve the social impacts and benefits contemplated; ability to meet production, expenditure and cost guidance; inability to achieve the expected benefits of the completion of the decline at Lamaque, the improvements at Kisladag and the optimization of Greek operations; inability to assess income tax expenses in Türkiye; risks relating to the ongoing COVID-19 pandemic and any future pandemic, epidemic, endemic or similar public health threats; timing and cost of construction, and the associated benefits; ability to achieve expected benefits from improvements, recoveries of gold and other metals; risks relating to our operations being located in foreign jurisdictions; community relations and social license; climate change; liquidity and financing risks; indebtedness, including current and future operating restrictions, implications of a change of control, ability to meet debt service obligations, the implications of defaulting on obligations and change in credit ratings; environmental matters; waste disposal; the global economic environment; government regulation; reliance on a limited number of smelters and off-takers; commodity price risk; mineral tenure; permits; risks relating to environmental sustainability and governance practices and performance; non-governmental organizations; corruption, bribery and sanctions; litigation and contracts; information technology systems; estimation of mineral reserves and mineral resources; production and processing estimates; credit risk; actions of activist shareholders; price volatility, volume fluctuations and dilution risk in respect of our shares; reliance on infrastructure, commodities and consumables; currency risk; inflation risk; interest rate risk; tax matters; dividends; financial reporting, including relating to the carrying value of our assets and changes in reporting standards; labour, including relating to employee/union relations, employee misconduct, key personnel, skilled workforce, expatriates and contractors; reclamation and long-term obligations; regulated substances; necessary equipment; co-ownership of our properties; acquisitions, including integration risks, and dispositions; the unavailability of insurance; conflicts of interest; compliance with privacy legislation; reputational issues; competition, as well as those risk factors discussed in the sections titled "Forward-looking information and risks" and "Risk factors in our business" in our most recent Annual Information Form & Form 40-F. The reader is directed to carefully review the detailed risk discussion in our most recent Annual Information Form & Form 40-F filed on SEDAR and EDGAR under our Company name, which discussion is incorporated by reference in this presentation, for a fuller understanding of the risks and uncertainties that affect our business and operations.

The inclusion of forward-looking statements and information is designed to help you understand management's current views of our near- and longer-term prospects, and it may not be appropriate for other purposes.

There can be no assurance that forward-looking statements or information will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, you should not place undue reliance on the forward-looking statements or information contained herein. Except as required by law, we do not expect to update forward-looking statements and information continually as conditions change and you are referred to the full discussion of the Company's business contained in the Company's reports filed with the securities regulatory authorities in Canada and the United States.

This presentation contains information that may constitute future-oriented financial information or financial outlook information (collectively, "FOFI") about Eldorado's prospective financial performance, financial position or cash flows, all of which is subject to the same assumptions, risk factors, limitations and qualifications as set forth above. Readers are cautioned that the assumptions used in the preparation of such information, although considered reasonable at the time of preparation, may prove to be imprecise or inaccurate and, as such, undue reliance should not be placed on FOFI. Eldorado's actual results, performance and achievements could differ materially from those expressed in, or implied by, FOFI. Eldorado has included FOFI in order to provide readers with a more complete perspective on Eldorado's future operations and management's current expectations relating to Eldorado's future performance. Readers are cautioned that such information may not be appropriate for other purposes. FOFI contained herein was made as of the date of the MD&A. Unless required by applicable laws, Eldorado does not undertake any obligation to publicly update or revise any FOFI statements, whether as a result of new information, future events or otherwise.

## Cautionary Note to US Investors Concerning Estimates of Measured, Indicated and Inferred Resources

Technical discussion regarding the Company's properties included herein has been prepared in accordance with the requirements of the securities laws in effect in Canada, which differ from the requirements of United States securities laws. The terms "mineral reserve", "proven mineral reserve", "probable mineral reserve", "mineral resource", "measured mineral resource", "indicated mineral resource" and "inferred mineral resource" are Canadian mining terms as defined in accordance with National Instrument 43-101 – *Standards of Disclosure for Mineral Projects* ("NI 43-101"). NI 43-101 is a rule developed by the Canadian Securities Administrators that establishes standards for all public disclosure an issuer makes of scientific and technical information concerning mineral projects. These standards differ from the requirements of the United States Securities and Exchange Commission (the "SEC") applicable to domestic United States reporting companies. Accordingly, information contained herein contains descriptions of our mineral deposits that may not be comparable to similar information made public by United States companies subject to the SEC's reporting and disclosure requirements.

## Qualified Person

Except as otherwise noted, scientific and technical information contained in this presentation was reviewed and approved by Simon Hille, FAusIMM, Senior Vice President, Technical Services and Operations for Eldorado Gold Corporation, who is the "qualified person" under NI 43-101 responsible for preparing and supervising the preparation of the scientific or technical information contained in this presentation and verifying the technical data disclosed in this presentation relating to our operating mines and development projects. Mineral resources that are not mineral reserves do not have demonstrated economic viability. Inferred mineral resources are considered too speculative geologically to have the economic considerations applied to them that would enable them to be categorized as mineral reserves. Jacques Simoneau, P.Geo a member in good standing of the Ordre des Géologues du Québec, is the qualified person as defined in NI 43-101 responsible for, and has verified and approved, the scientific and technical disclosure contained in this presentation for the Quebec projects.

# Non-IFRS Measures

## Cautionary Note about Non-IFRS Measures

Certain non-IFRS financial measures and ratios are included in this presentation, including average realized gold price per ounce sold, cash operating costs and cash operating costs per ounce sold, total cash costs and total cash costs per ounce sold, all-in sustaining costs ("AISC") and AISC per ounce sold, adjusted net earnings/(loss) attributable to shareholders, adjusted net earnings/(loss) per share attributable to shareholders, working capital and cash flow from operating activities before changes in working capital, earnings before interest, taxes and depreciation and amortization ("EBITDA"), EBITDA margin, and adjusted earnings before interest, taxes and depreciation and amortization ("Adjusted EBITDA"), free cash flow and sustaining and growth capital expenditures.

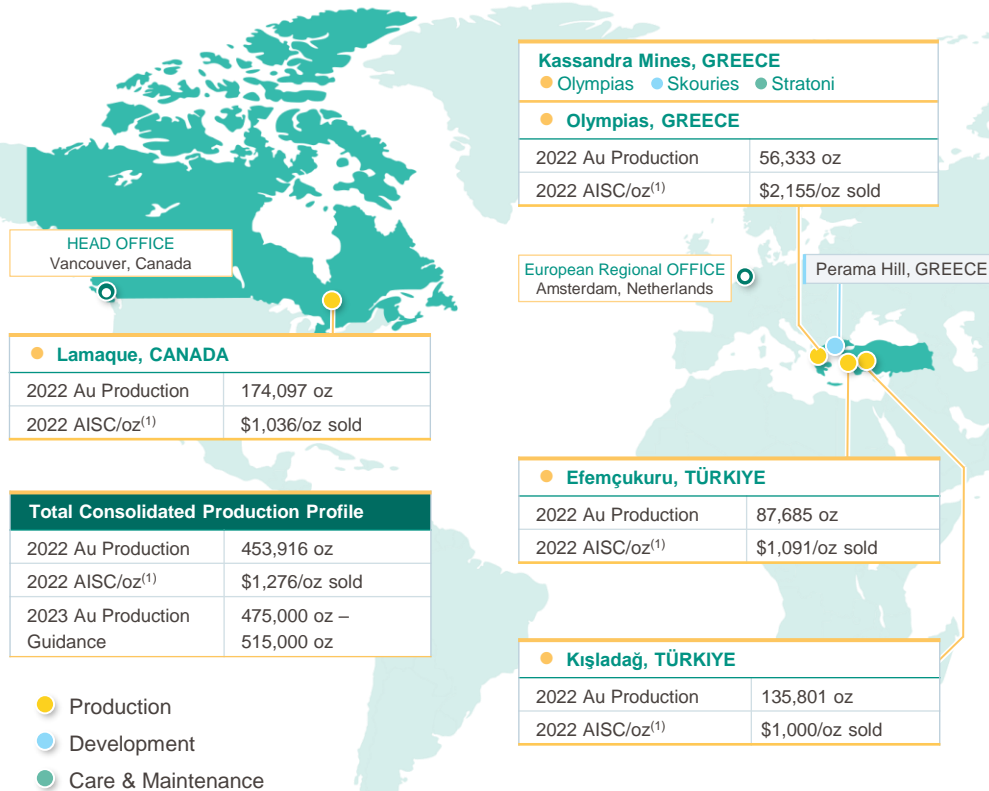

The Company believes that these measures and ratios, in addition to conventional measures and ratios prepared in accordance with International Financial Reporting Standards ("IFRS"), provide investors an improved ability to evaluate the underlying performance of the Company. The non-IFRS and other non-financial measures and ratios are intended to provide additional information and should not be considered in isolation or as a substitute for measures or ratios of performance prepared in accordance with IFRS. These measures and ratios do not have any standardized meaning prescribed under IFRS, and therefore may not be comparable to other issuers.

Certain additional disclosures for these non-IFRS measures, including quantitative reconciliations to the most directly comparable IFRS financial measures, are incorporated by reference herein and can be found in the section 'Non-IFRS and Other Financial Measures and Ratios' starting at page 31 in the Company's December 31, 2022 MD&A available on SEDAR at [www.sedar.com](http://www.sedar.com) and on the Company's website under the 'Investors' section.

The most directly comparable IFRS financial measures and results from the year ended December 31, 2022 are below.

Non-IFRS Measure	Most Directly Comparable IFRS Measure	2022
Cash operating costs (C1)	Production costs	\$459.6 M
Total cash costs (C2)		
AISC		
Average realized gold price per ounce sold	Revenue	\$872.0 M
EBITDA	Earnings (loss) from continuing operations before income tax	\$11.9 M
Adjusted EBITDA		
Adjusted net earnings/(loss)		
Adjusted net earnings/(loss) per share	Net earnings (loss) attributable to shareholders of the Company from continuing operations	(\$49.2) M
Cash flow from operations before changes in non-cash working capital	Net cash generated from operating activities of continuing operations	\$211.2 M
Free cash flow		
Sustaining capital expenditures		
Growth capital expenditures	Additions to property, plant and equipment during the period	\$305.8 M

# Diversified Portfolio of Long-Life, High-Quality Assets

## Diverse Asset Portfolio

- Operations in Türkiye, Greece and Canada
- 12.3Moz of P&P gold reserves<sup>(2)</sup>

## Production Growth

- Annual production expected to increase to 675,000 – 735,000 ozs in 2027

## Pipeline of Strategic Growth Projects

- Development projects: Skouries, Perama Hill
- Commercial production at Skouries expected by end of 2025

# Strong Investment Rationale

## Eldorado is driving investor returns by focusing on four key areas

### Pipeline of Strategic Growth Projects

- **Skouries:** Transition into execution phase in Q1 2023. ~140kcozs annual gold production, with commercial production expected at end of 2025
- **Kışladağ:** Increase throughput and recovery
- **Lamaque:** Exploration upside from nearby targets

### Attractive Valuation

- Eldorado trades at 0.5x P/NAV versus peers at 0.7x P/NAV<sup>(1)</sup>
- Advancing high-quality Greek assets creates re-rating potential

### Focused on ESG

- Strong ESG performance as a mid-cap miner
- Diversity/inclusion, adherence to WGC Conflict Free Gold Standards, best practices for tailings management

### Financial Position

- Cash, cash equivalents, and term deposits of \$315M as of December 31, 2022
- Continue to focus on maintaining a solid financial position which provides flexibility to unlock value across our business

# Skouries Financing Summary

Maximizing shareholder value with well-aligned strategic partnerships

## Term Facility Components

<b>Greek Banks</b> National Bank of Greece & Piraeus Bank	€480 million
<b>Recovery and Resilience Facility (RRF)</b> loan provided by the EU via the Greek State	€100 million
Bridge loan, expected to be replaced by a further RRF loan in 2023	€100 million
<b>Total Project Financing Facility</b>	<b>€680 million</b>

**Project funding requirement is expected to be fully addressed.**

## Key Features of Term Facility

- **Non-recourse to Eldorado**; secured by Hellas Gold
- **Blended interest rate** of approximately 5%<sup>(1)</sup>
- **10-year term**: 3 years availability; 7 years repayment
- Financing includes additional cost overrun facility of up to 10% of capital costs
- **Initial drawdown of funds in Q2 2023**
- **~US\$34.0 million** of early-works spending through to the end of March 2023, will be applied as a credit towards the Company's equity commitment

# Skouries Capital Cost Breakdown

Well-positioned to reach commercial production on schedule and on budget

## Capital Cost Breakdown (US\$M)

- ~20% for Waste and Water Management Facilities<sup>(1)</sup>
- ~50% for Process Plant & Infrastructure (Including Dry Stack Tailings) <sup>(1)</sup>

## Capital Cost Estimate

- The **project is half-built** with major processing equipment already purchased and installed, and meaningful progress on early-works activities in 2022
- In Q2-22, a \$17M **purchase order was executed** for the **filter press**, a **long-lead critical path item**, in line with cost and delivery scheduled from the Feasibility Study ("FS") estimate
- Approximately **half of the capital cost estimate is related to labour**. The local area has a history of mining and there is a ready pool of labour.
- **Commodity & input price assumptions** including copper, steel and cement, **remain in line with the FS assumptions**

# 5-Year Operating Outlook Includes Skouries

**Production (midpoint) increasing by over 55% over the 5-year period driven by organic growth projects and expected commercial production from Skouries**

## 2023 Production Guidance Ranges (oz)

Kışladağ	160,000 – 170,000
Lamaque	170,000 – 180,000
Efemçukuru	80,000 – 90,000
Olympias	60,000 – 75,000
Total <sup>(3)</sup>	475,000 – 515,000

# Attractive Valuation

Eldorado has an attractive valuation compared to peers  
Advancing high-quality Greek assets creates re-rating potential

Consensus P/NAV

Source: FactSet; data as of Feb 22, 2023

Consensus EV/2023E EBITDA<sup>(1)</sup>

Source: FactSet; data as of Feb 22, 2023

(1) These are non-IFRS financial measures or ratios. See Slide 2 'Non-IFRS Measures' for more information.

# ESG is a Key Priority

## Peer comparison shows Eldorado as a strong ESG performer in the mid-cap mining sector

### ESG actions are recognized globally

Eldorado's *Sustainability Integrated Management System* incorporates global standards including the Responsible Gold Mining Principles and *Towards Sustainable Mining*

1 = highest; 10 = lowest

**GOVERNANCE  
QUALITYSCORE**  
HIGHEST RANKED BY ISS ESG

1 = highest; 100 = lowest

100 = Poor

**ELD Score**

**Score = 21**

(Top 7% of Peer Group)

### Leading the way in ESG areas

- The Board exceeds our diversity target of having at least 30% female directors by 2022 and exceeds the other designated groups<sup>(1)</sup> target of 10%
- Lamaque is a leader in low-carbon gold mining
- Industry-leading tailings management (dry stack tailings)

### Journey to Decarbonization

- Climate Change and Greenhouse Gas (“GHG”) Emissions target:
  - Mitigating GHG emissions by 30%, from 2020 levels, by 2030 on a ‘business as usual’ basis, which equates to removing approximately 65,000 tonnes of carbon dioxide equivalent by 2030

# Recent Achievements and Upcoming Value Drivers

Successfully delivered 2022 catalysts; Focused on upcoming value drivers

## Recent Achievements

- **Türkiye:**
  - Agglomeration optimization at Kışladağ, including installation of larger conveyors in Q4 2022 to improve material handling and throughput rates
  - Efemçukuru met annual production guidance for 9th consecutive year
- **Québec:**
  - Completion of Triangle decline and exploration drift; Started Ormaque resource conversion drilling
  - Updated Lamaque Technical Study
- **Greece:**
  - €680 million financing package secured for the development of Skouries, including Board approval for the full re-start of construction at Skouries

## Upcoming Value Drivers

- **Türkiye:**
  - Kışladağ opportunity to increase throughput and recoveries
    - Installation and commissioning of an agglomeration drum expected in H1 2023
  - Resource conversion of Kokarpinar & Bati at Efemçukuru
- **Québec:**
  - Resource conversion drilling of upper two-thirds Ormaque deposit
- **Greece:**
  - Continued productivity improvements at Olympias following positive progress in 2021-2022. Potential expansion to 650ktpa
- **Corporate/Other:**
  - Closing of Certaj divestment (non-core Romanian asset), which is consistent with the Company's strategy of focusing on core jurisdictions in its portfolio

# Thank You

**TSX:** ELD

**NYSE:** EGO

[eldoradogold.com](http://eldoradogold.com)

# Notes on Mineral Resources and Reserves

1. Mineral resources and mineral reserves are as of September 30, 2022.
2. The mineral resources and mineral reserves were classified using logic consistent with the CIM Definition Standards for Mineral Resources & Mineral Reserves (2014) incorporated, by reference, into National Instrument 43-101 – Standards of Disclosure for Mineral Projects (NI 43-101).
3. Mineral reserves are included in the mineral resources.
4. The mineral resources and mineral reserves are disclosed on a total project basis.

Mineral resources which are not mineral reserves do not have demonstrated economic viability. With respect to “inferred mineral resources”, there is a great amount of uncertainty as to their existence and a great uncertainty as to their economic and legal feasibility. It cannot be assumed that all or any part of an “indicated mineral resource” or “inferred mineral resource” will ever be upgraded to a higher category.

## Mineral Reserve Notes:

1. Long Term Metal Price assumptions: Gold = \$1,300/oz; Silver = \$17.00/oz; Copper = \$2.75/lb; Pb price = \$2,000/t and Zn price = \$2,400/t.
2. Cut-off grades: Certej: 0.90 g/t Au Equivalent grade ( $=Au(g/t)+Ag(g/t)*0.0121$ ); Efemçukuru: \$104/t NSR (long hole stoping), \$108/t NSR (drift and fill); Kışladağ: 0.18 g/t Au Recoverable; Lamaque: 4.69 g/t Au; Olympias: \$195/t NSR; Perama Hill: 0.73 g/t Au; Skouries: \$10.60/t NSR (open pit), \$33.33/t NSR (underground).
3. Qualified Persons: Terry Cadrin, P.Eng., Director, Business Planning and LOM Evaluations for the Company, is responsible for Efemçukuru, Kışladağ, Perama Hill, and Skouries (open pit) mineral reserves; Gary Methven, P. Eng., of AMC, is responsible for Skouries (underground) mineral reserves; Jessy Thelland, géo (OGQ No. 758), Technical Services Director Lamaque for the Company, is responsible for Lamaque mineral reserves; Victor Vdovin, P. Eng., Head of Mining Greece for the Company, is responsible for Olympias mineral reserves.

## Mineral Resource Notes:

1. Long Term Metal Price assumptions: Gold = \$1,800/oz; Silver = \$24.00/oz; Copper = \$3.25/lb; Pb price = \$2,200/t and Zn price = \$2,600/t.
2. Mineral Resource Reporting and demonstration of Reasonable Prospects for Eventual Economic Extraction: The mineral resources used a long term look gold metal price of \$1,800/oz for the determination of resource cut-off grades or values. This guided execution of the next step where constraining surfaces or volumes were created to control resource reporting. Open pit-only projects (Kışladağ, Perama Hill, and Perama South) used pit shells created with the long term gold price to constrain reportable model blocks. Underground resources were constrained by 3D volumes whose design was guided by the reporting cut-off grade or value, contiguous areas of mineralization and mineability. Only material internal to these volumes were eligible for reporting. Projects with both open pit and underground resources have the open pit resources constrained by either the permit (Skouries) and/or pit shell, and underground resources constrained by a reporting shape.
3. Cut-off grades: Certej: 0.60 g/t Au; Efemçukuru: 2.5 g/t Au; Kışladağ: 0.25 g/t Au; Lamaque: 3.0 g/t Au; Ormaque: 3.5 g/t Au; Olympias: \$125/t NSR; Perama Hill and Perama South: 0.50 g/t Au; Piavitsa: 4.0 g/t Au; Sapes: 2.5 g/t Au (underground), 1.0 g/t Au (open pit); Skouries: 0.30 g/t Au Equivalent grade (open pit), 0.70 g/t Au Equivalent grade (underground) ( $=Au\ g/t + 1.25*Cu\%$ ); Stratoni: \$200/t NSR.
4. Qualified Persons: Sean McKinley, P.Geo., Manager, Mine Geology & Reconciliation for the Company, is responsible for the Certej, Perama Hill, Perama South, Piavitsa, Sapes and Skouries mineral resources; Jessy Thelland, géo (OGQ No. 758), Technical Services Director Lamaque for the Company, is responsible for Lamaque and Ormaque mineral resources; Ertan Uludag, P.Geo., Manager, Resource Geology for the Company, is responsible for the Efemçukuru, Kışladağ, Olympias and Stratoni mineral resources.

# Notes on Mineral Resources and Reserves (cont'd)

All Mineral Reserves and Mineral Resources have been estimated in accordance with the standards of the CIM and NI 43-101. Sample preparation, analytical techniques, laboratories used, and quality assurance and quality control protocols used during exploration drilling programs are done consistent with industry standards while independent certified assay labs are used. Additional information on the mineral properties mentioned in this presentation that are considered to be material mineral properties to the Company are contained in Eldorado's news release dated December 5, 2022, Eldorado's annual information form for the year ended December 31, 2021 and the following technical reports for each of those properties, all of which are available under the Company's profile at [www.sedar.com](http://www.sedar.com) and [www.sec.gov](http://www.sec.gov):

- Technical report entitled "Technical Report, Kisladag Gold Mine, Turkiye" with an effective date of January 17, 2020.
- Technical report entitled "Technical Report, Efemcukuru Gold Mine, Turkiye" with an effective date of December 31, 2019.
- Technical report entitled "Technical Report, Olympias Mine, Greece" with an effective date of December 31, 2019.
- Technical report entitled "Technical Report, Skouries Project, Greece" with an effective date of January 22, 2022.
- Technical report entitled "Technical Report, for the Lamaque Project, Quebec, Canada" with an effective date of December 31, 2021.
